A message to our customers and friends -	
we endeavor at all times to give high quality stock, knowing from experience #1 bulbs and plants give stronger stems and larger blooms, and more pleasure. We request permission to substitute if sold out of a named variety, with plants of similar color and quality and price. We will use our discretion in substituting unless you specify second choice, or that a refund is desired. The labor situation is critical and we are operating short handed, so order early. Orders will be shipped at the proper planting time. No shipments will be made after June 10th, as plants get too large to be sent successfully. We extend our hearty and sincere wishes for your success in creating beauty.
